## Markets Covered and Securities Selection

Depository Receipt Services at Citi, a leading depository bank, has developed six Liquid DR Indices that are an excellent gauge of international investor sentiment towards non-U.S. markets. Security Selection is based on distinctive and objective rules:

- U.S. exchange cross listed ADR, New York Registry Share, or Global Share; or London Stock Exchange traded GDR.
  - London-traded GDRs have been included in the Asian and CEEMEA indices to more completely capture U.S. and international sentiment towards the Indian, Korean, Taiwanese and CEEMEA markets.
- Minimum free-float market cap of US\$250 million.
- Minimum US\$ value of trading of \$2 million/day for U.S. listed ADRs, or \$1 million/day for London-traded GDRs.
- The indices are calculated and maintained by Standard & Poor's Custom Index Group.
